### CURRENT SITUATION

*(Recent updates are posted at the top of Current Situation)*

On April 3, 2019 at 2:19 p.m., The City of Riverside Fire Department dispatched a first alarm structure fire assignment to 4000 Pierce in space #13 at the Meadows Mobile Home Park. Firefighter arrived on scene to discover a double-wide single story mobile home with light smoke showing. Firefighters performed a fire attack coordinated with ventilation. A primary and secondary search with no residents or pets located in the structure. There was no exposure issue. Firefighters located the fire in a rear bedroom and were able to extinguish the fire and keep it confined to the room of origin. Firefighters checked for extension into the attic space with no hidden fire located. The Thermal Imager Camera was utilized and confirmed no hidden fires or hot spots. The on duty investigators conducted the preliminary fire investigation on scene. They determined the cause was burning a candle that had toppled onto the floor causing the fire as the most probable cause, but the actual fire cause is undetermined. The homeowner was given a tour of the house. A request for Red Cross was placed with Riverside Dispatch for the homeowner who had requested assistance from the Red Cross. The house was borderline habitable and the decision to habit the house was left with the homeowner. The loss is estimated at \$20,000 with a save of \$200,000. A total of 16 firefighters and one chief officer responded.
